

Laboratory Manager/Technician

Basque Center for Macromolecular Design and Engineering-POLYMAT Fundazioa is a research center based in Donostia-San Sebastian associated to the University of the Basque Country. It is devoted to use-inspired fundamental research on synthesis, assembly and processing of polymers.

POLYMAT invites applications for a laboratory Manager/Technician Position in the Catalysis and Sustainable Polymer Group (<https://haritzsardonlab.com/>)

Key Tasks & Responsibilities

The candidate will be in charge on lab maintenance, lab orders and keeping the lab supplies in order. Moreover this person will be in charge of the good practice in the laboratory as well as the maintenance of key equipments. This position may also require the participation of the candidate in research projects and development of new projects. Experience in lab management duties and previous experience in similar positions will be considered.

Knowledge, Skills & Abilities

We are looking for a motivated and experienced Lab Manager/Technician with the following profile:

- Lab technician title (preferably physics, chemistry or engineering)
- Experience in polymer characterization and mass spectroscopy
- Experience in research laboratories and lab organization.
- Self-motivated with willingness to work effectively within a multi-disciplinary and international team.

We offer an excellent opportunity for professional development, a permanent contract and competitive salary in accordance with the level and responsibility of the position.

Applicants should send their CV resumee via email to edurne.gaston@ehu.eus **before April 30th, 2024**, indicating "Laboratory Manager/Technician" in the email subject.
