

Postdoctoral Fellowship in In-situ Synthesis of Hybrid Electrolytes for Solid State Li-metal Batteries

A Postdoctoral Fellowship is available to support the research activities in the context of the SEATBELT (Solid-state lithium metal battery with in situ hybrid electrolyte) project in the group of Dr. Iruñe Villaluenga at the Basque Center for Macromolecular Design and Engineering, POLYMAT Fundazioa (www.polymat.eu).

Applicants must have a PhD in Material Science, Electrochemistry, or Polymer Science. Those with experimental and communications skills, and enthusiasm for research and innovation are encouraged to apply.

Applications should be addressed to Dr. Iruñe Villaluenga (irune.villaluenga@polymat.eu) before the 01/07/2022. Applications will be considered upon arrival including:

1. (i) a cover letter highlighting their interest in the position.
2. (ii) curriculum vitae.
3. (iii) a short description of previous research (1-2 Pages).
4. (iv) the names and contact addresses (e-mail) of two academic referees.

Please note that, because of the large number of applications expected, we will not be able to give individual feedback to unsuccessful applications.

POLYMAT has obtained the 'HR Excellence in Research award'. The award reflects our commitment to continuously improve our human resource policies in line with the European Charter for Researchers, the Code of Conduct for the Recruitment of Researchers and our commitment to achieve fair and transparent recruitment and appraisal procedures.
